

## **The Story of the 3 Little Pigs**

The house of straw was blown down in 3 seconds and the stupid little pig stood there shaking. The wolf took a huge bite out of the pig's left ear and YUK. He was sick as a pig - he hated the taste of pork. The wolf became a vegetarian and opened a non-meat restaurant. One day all three pigs came in for a meal. The wolf was taking their order but slipped on 4 tomatoes. He hit his head on a table. Something snapped in his head and he found his taste for flesh. He ate the three little pigs which was bad for the reputation of his restaurant but they tasted great.
